tionary prison in the wing of the Palais de Justice, known as the Conciergerie, where he inspected the dungeons, among others that in which Marie Antoinette was confined prior to her execution.

Ambassador and Mrs. Bacon gave a dinner this evening of twenty-eight covers in honor of Col. Wood. Mrs. Roosevelt. The guests included Premier Briand, ex-President and Mme. Loubet, Foreign Minister and Mme. Poincaré, the French Ambassador to the United States and Mme. Jusserand; Count de Selva, M. Lapine, Prefect of Police; Gen. Dalstein, Military Governor of Paris; M. Catin, president of the Municipal Council; and Mrs. W. K. Vanderbilt, and Mrs. Montgomery Sears. One of the ex-President's visitors today was the Indian Prince, Jagajit Singh Bahadur, Maharajah of Kapurthala.

### LAST DAY'S PROGRAMME.

The last day in Paris of the Roosevelt party includes a visit to Vincennes tomorrow morning, where, under the direction of Gen. Dalstein, the Paris fair, and will be put through a series of evolutions. In the afternoon there probably will be an excursion to Versailles, where fetes have been arranged, and in the evening Col. Roosevelt will be a guest at dinner at the Ministry of Foreign Relations.

### COUNT APPONYI IS BEATEN BY RIOTERS.

(ASSOCIATED PRESS NIGHT REPORT.) VIENNA, April 26.—Count Albert Apponyi, the former Hungarian Minister of War, whose guest Theodore Roosevelt was on his trip to Budapest, was attacked at a political meeting at Temenvar Sunday night by a crowd of socialists. The Count's carriage was stoned and eggs, and cudgeled the Count seriously.

After desperate efforts the coachman forced the horses through the mob and the Count took refuge in the Bishop's Palace. He was followed by the rioters, who broke every window in the palace.

### ARDUOUS.

### JUST ONE NAME IS DAY'S WORK.

HOW THE CENSUS IS TAKEN IN ALASKA.

Enumerators Travel Many Miles on Dog Sledd in Some Localities.—One of Four Districts is Completed in Four Months and Ten Days.—Agent in Seattle.

(ASSOCIATED PRESS NIGHT REPORT.) SEATTLE, April 26.—W. A. McKensie, chief special agent of the United States Census Bureau for Alaska, arrived from Alaska yesterday, having completed the census enumeration in one of the four districts of the Territory.

This district extends from the Alaska range to the Arctic Ocean, and from a line drawn through Kotzebue on the Yukon, east to the Canadian frontier.

The enumeration was begun December 1, and completed April 15. The enumerators traveled thousands of miles with dog sleds, and frequently a whole day's journey was required to get a single name.

### SNOWS SNUB ENUMERATORS.

New York Census Supervisor Threatens to Land Some Wealthy Citizens in the Tombs.

(ASSOCIATED PRESS DAY REPORT.) NEW YORK, April 26.—Announcement was made today on the authority of no less a personage than the New York census supervisor, that several members of New York's wealthy citizens will shortly find themselves languishing in the Tombs unless they mend their ways and refrain from treating with contempt and discourtesy the enumerators sent to their homes by the United States government.

"The mobs think themselves above the law," said Supervisor Falck, with a bang of his fist, "and believe they can disregard it with impunity. They have so often taken advantage of technicalities and overridden the rights of others that they are indignant when told they must answer our questions. But if there is any further nonsense, I shall apply for warrants without delay."

A short visit to the Tombs will convince them that we mean business and will probably make better citizens of them.

"The working classes, the tenement population and even the foreign born have grasped the situation and given our men little difficulty. Our experience proves that they are the most law-abiding and intelligent citizens we have."

But the private residential sections have caused a great deal of annoyance, and in many cases information has been curiously denied by a butler or a servant and the door slammed in the enumerator's face.

### HIDES FROM "CENSUS MAN."

Two-Year-Old Boy Secretly Himself in the Brush for Five Hours.

(ASSOCIATED PRESS DAY REPORT.) WASHINGTON (Pa.) April 26.—While thirty men dragged the river and panned the neighboring country, Lemoyne Moore, 6 years old, hid in the brush 100 feet from his home today, and was secreted for five hours. He was trying to escape the census enumerators.

The child had been told how the census enumerator took his boys, and as one of the government officials appeared at the front door of the Moore home this morning Lemoyne fled from the back door. After the census man had left the parents released the boy and neighbors took up the search.

Hours afterwards the boy stole from his hiding place and pleadingly asked his mother if the "census man" was gone.

### Attempt to Block Census.

SPRINGFIELD (Ill.) April 26.—Two men and one woman were held yesterday to answer in the Federal District Court for refusal to answer questions of the census enumerators. Warrants were called for after Census Supervisor Butler had secured instructions from Washington.

The big canvas tent of a circus which has been exhibiting in Jersey City this week, collapsed in an early morning thunderstorm yesterday, killing one man and fatally injuring another. The cages containing the animals were also beneath the canvas and there was panic among the occupants, but the bare stood the test of the falling poles and the canvas, and none of the animals were able to escape.

## MAYOR, JUSTICE AND POLICE OF OREGON TOWN INDICTED.

(ASSOCIATED PRESS NIGHT REPORT.)

PORTLAND (Or.) April 26.—The county grand jury handed down indictments late today against nine men, among whom are the Mayor and Justice of the Peace of St. John, and two policemen of that town, as a result of an investigation into the Hindu race riots which occurred in St. John March 21.

The Mayor and Justice are charged with neglect of duty and the policemen with both neglect of duty and participation in the rioting.

The following were indicted: J. P. Hendricks, Mayor of St. John; D. W. Down, Justice of the Peace; D. W. Elthridge, policeman; G. W. Dunbar, policeman; Gordon Dickey, Ray Vandegard, John N. Groves, Milton Unger, and Daniel Herold, residents of St. John.

Henricks, Down, Elthridge and Dunbar are accused in one indictment of "neglect of duty to quell a riot against the peace and good order of the town and State."

A second indictment charges Elthridge and Dunbar, and the others with having assembled in a riotous meeting, the object of which was to drive sixteen Hindu laborers named in the indictment, out of St. John; also with having committed burglary and assault and battery, and robbery on the Hindu, from whom the indictment alleges they stole \$185 and finally that they paraded about the streets armed with clubs, guns and pistols.

Dickey's home was fixed at \$500; Vandegard's at \$100, and the others at \$500 each. All the defendants had furnished bonds in the required amounts when they were bound over to appear before the grand jury and these bonds were allowed to stand.

The riots which caused the investigation occurred in St. John, a suburb of this city, March 21 last, and were the result of ill feeling engendered by the employment of about 200 Hindu laborers in a large lumber mill there, in place of white mill hands.

RENO (Nev.) April 26.—(Exclusive Dispatch.) "I don't want you any more, I'm done with you," declared William Hamilton Vankleek, formerly connected with the Drexel-Morgan banking concern of New York, who recently in business in Petaluma, Cal., as he took his wife, Lily Helen Vankleek, at midnight the night after Christmas, three years ago, to the home of her parents and left her there.

He testified the wife in local divorce court today at the trial of her suit for divorce, charging desertion of her husband in December, 1932. The couple were married in New York in February, 1929, and have no children.

The witness, who was a member of one of Gotham's prominent churches, attended a service with her mother and step-father, Alexander H. Thompson, a lawyer of New York, and at a late hour returned to her home where her parents lived and went to their home. Then her husband upbraided her and declared he had had all he wanted of her. He compelled her to pack a few personal belongings and took her to her parents' home. Mrs. Vankleek asked no alimony, but to resume her maiden name. There was no contest. The divorce was granted by Judge Orr.

**HINDUS TURNED BACK.**  
PHYSICAL DEFECTS FOUND.  
(ASSOCIATED PRESS NIGHT REPORT.)  
WASHINGTON, April 26.—Twenty-nine Hindus, out of forty-six, who recently arrived at San Francisco, have been ordered returned to their native land by a decision of Mr. Cable, Assistant Secretary of the Department of Commerce and Labor. Those denied admission were rejected because of physical defects, many of them being frail.

Hindu immigration is being vigorously opposed by the people of the Pacific Coast on the ground that Hindus do not readily assimilate with the white race and that their presence permits their coming under restrictions and the officials say it is impartially enforced.

**NEVER SAW REPORTER.**  
PRITCHETT'S LETTER.  
(BY DIRECT WIRE TO THE TIMES.)  
RENO (Nev.) April 26.—(Exclusive Dispatch.) President Stubbs, University of Nevada, received a long letter from the president of the Carnegie Foundation in New York today of which this is an excerpt: "I had a most pleasant visit and came away with a hearty respect for the university and what it is doing. You have built up there a straightforward and alert college of which you have every reason to be proud. I never saw a reporter and never mentioned the University of Nevada in any connection whatsoever. The whole thing was invented. The sole truth is the statement was that I had visited the institutions which were referred to. I shall expect to receive from you the material which I left at Nevada, all of which will receive from me the most careful consideration."

**HUSBAND PROBABLY DEAD.**  
WIFE SECURES DIVORCE.  
(ASSOCIATED PRESS NIGHT REPORT.)  
PHOENIX (Ariz.) April 26.—Mrs. Mittie McCormick, formerly of Washington, D. C., was granted a divorce today from John P. McCormick on the technical ground of desertion. The real purpose of the proceeding was to legally establish the fact of the death of the husband, who is supposed to have drowned himself at sea off Norfolk, Va., in 1931. McCormick wrote a letter before boarding the steamer, telling his wife she would never see him again. He had become financially involved, according to her testimony, and the presumption was that he jumped overboard.

## BLACK HAND IS SUSPECTED.

Mystery of Estella Reid's Death Deepens.

Autopsy Discloses Two Stab Wounds in Breast.

Girl Owned Much Property in California.

(BY DIRECT WIRE TO THE TIMES.)

NAPLES, April 26.—(Exclusive Dispatch.) The mystery of Miss Estella Reid's death deepens. The autopsy entirely disposes of suggestions made on the strength of her peculiar habit of never staying longer than two weeks at any one hotel and she is not known to have had any special friends. The autopsy disclosed what appears to be two stab wounds in the breast.

The body was in the water only a few hours and therefore the greater part of her absence of forty-eight hours from her hotel remains unaccounted for. The theory that she was a victim of the Black Hand is gaining ground. The police think that she may have been a detective in possession of important secrets and therefore was kidnapped and taken out to sea in a boat and thrown overboard.

A dispatch from Rome says: "A report is current here that Estella Reid was a near relation of Princess Leopoldina and that the Princess had come to Naples to take charge of the only. It is certain that the Princess as left Rome, but her servants refuse to say where she has gone.

"Miss Reid is said to have been friendly with the family of Giuseppe, who was formerly American ambassador to Italy."

"The young woman owned much property in New York, New Jersey and California, and was independently wealthy."

CHILD DRINKS POISON.

and Suicide—Leaves Plaintive Note Asking That Doll Be Buried With Her.

(BY DIRECT WIRE TO THE TIMES.)

ALTON (Ill.) April 26.—(Exclusive Dispatch.) Leaving a note begging that her doll be buried with her, and that her ring be left on her hand, Nina Anthis, 13 years old, a pupil in the Alton Park school at Alton, today drank a two-ounce bottle of carbol-acid in the presence of her fellow pupils. She died a few minutes later.

The little girl had just returned from some after the noon recess. As the bell called them to their studies, she stepped out of line, she gazed wistfully up and down the row into the face of each of her mates, snatched the bottle from her pocket and drank the contents.

Placed inside of her dress was a note addressed to her "loving angel loving mother" and her "angel loving brother." It read:

"Dear Loving Brother and Mother: I would like to say one thing to you. It is to please my doll with me and that is all I care about, and leave my ring on my hand. I love you, Willie, and I love my mother. I will meet you in heaven. If I was a sinner before I died, I hope God will forgive me, and I pray Willie will be good to you and take care of you. Your loving adopted child, Nina Anthis."

"To her loving angel mother and her angel loving brother."

BIG JEWELRY SWINDLE.

HALF-MILLION IS LOST.

(ASSOCIATED PRESS DAY REPORT.)

PROVIDENCE (R. I.) April 26.—Developments up to date indicate that through a great swindle manufacturing jeweler in Rhode Island and other States have been robbed of goods valued at half a million dollars. Ten arrests have already been made in Alabama and Texas, and one of the alleged conspirators was ready to cross into Mexico when he was taken into custody.

Details of the swindle were made public today by Representative Harry C. Butler of this city, who was a member of the committee of the New York Jewelry Board of Trade to capture the conspirators. The scheme was to buy jewelry throughout the country and ship it to Montenegro. After that, the reports say, dummy packages were sent from a Montenegro firm to other stores controlled by it. These were then credited as the real shipments of valuable goods and so listed. The stores were then set on fire. It is alleged, and the dummy packages were listed as lost assets by the firm in bankruptcy proceedings.

KILLED FELLOW YEGG.

TO DIE IN SING-SING.

(ASSOCIATED PRESS DAY REPORT.)

NEW YORK, April 26.—Thomas Barnes, alias "Bangor Billy," who killed his fellow "yegg" William Leonard, for squealing, has been sentenced to die in Sing-Sing prison in the week beginning June 8. Barnes was one of six men who robbed the postoffice at Raleigh, N. C., a year ago. The other five were all arrested and convicted, but Leonard, one of them, was pardoned by the President, at the request of postoffice inspectors, who found they could use him to get information. Barnes suspected Leonard and traced him to Brooklyn, where he shot him in the door before his wife.

ST. LOUIS, April 26.—Joseph Flaherty, aged 25, shot and killed his father-in-law, Charles Schrader, fired a shot at his wife, missing her, and then shot himself through the head last night, because he was refused permission to kiss his baby. He had separated from his wife.

## UNUSUAL PEACE MONUMENT IS DEDICATED IN WASHINGTON.

Elaborate Programme Is Held When the New Marble Home of the International Bureau of American Republics Is Opened Within a Stone's Throw of White House—Prominent Statesmen Make Speeches.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, April 26.—The magnificent new marble building of the International Bureau of American Republics—within a stone's throw of the White House—was dedicated in the name of universal peace today. President Taft joined with Andrew Carnegie, Secretary Knox, senator Root and Señor De La Barra, the Mexican Ambassador, as representative of the Latin-American republics, and pledged themselves to strive for that happy state. Mr. Carnegie went so far as to express the hope that Canada, with the consent of Great Britain, some day would join the family of peaceful American republics.

President Taft called out general laughter by referring to the controversy between Theodore Roosevelt and Mr. Carnegie two years ago at the laying of the corner-stone of the building dedicated today.

"They differed as to the methods by which peace should be obtained," said the President, "but that both were earnest and determined to have peace there was no doubt."

"Hear, hear," shouted Mr. Carnegie, "as the laughter died away."

MAGNIFICENT.

The new building won the admiration of the whole party. Within the hour, the ceremony of dedication was held at the reception tonight at which President Taft and Mr. Carnegie headed the receiving party.

Two PARTS TO PROGRAMME.

The celebration to which the President referred, as the most important international event which Washington had witnessed in many years, was divided into two parts; in the afternoon were held the actual ceremonies attending the formal dedication, when impressive speeches were made by eminent officials and individuals.

Director John Barrett made a statement descriptive of the building and the work of the bureau, while Albert Kelsey, of the Philadelphia firm of Kelsey & Crest, who designed the beautiful structure, told of its architectural features.

Just preceding the benediction by Right Rev. Bishop Harding, which concluded the afternoon exercises, were some of the most unique and interesting features of the programme, when President Taft and Mr. Carnegie jointly planted a "Peace Tree" in the patio, or court yard.

The new home of the bureau represents the expenditures of \$1,900,000, of which sum Mr. Carnegie contributed \$750,000, and the treasury of the American republics the remainder. It is described by the best critics of architecture and construction, as one of the most artistic official buildings in the world.

COUNTRY HONORED.

"I esteem it a great honor to the United States of America," said the President, at the dedicatory exercises, "that the other twenty American republics should decide to make this building their common home. It is described by the best critics of architecture and construction, as one of the most artistic official buildings in the world."

CARNEGIE'S SPEECH.

"Universal peace," declared Andrew Carnegie, "is desired by all rulers and statesmen of the earth. But it is failure, the magnate said he was persuaded, lies in the fact, 'that these rulers and statesmen know not each other well.'"

By way of opening his address at the dedicatory exercises in the new building of the International Bureau of American Republics, donated by him, Mr. Carnegie described himself as one of the remaining members of the first international conference of the American Republics, and then went on to draw a homely illustration.

"Two men differ," said he, "if strangers, the probable result is strife. Two friends differ. The probable result is peaceful settlement by themselves, or, failing in that, by arbitration of friends, and the two friends become dearer to one another than before. That is because neither has assumed to sit as judge in his own case. The greatest crime which either man or nation can commit is to insist upon doing that which which is strong."

"The crime of war is inherent—it gives victory not to the nation which is strong, but to that which is strong."

The possibility of Canada joining the republics, with the approval of England, Mr. Carnegie seemed to consider not remote. He declared, should not be excluded from the co-operative work of the bureau. He referred with emphasis to her position in the politics of the Western Hemisphere.

"It may be questioned whether this century is all Canada's," said Mr. Carnegie, "if the Bureau of American Republics continue to keep the world advised of the progress of Pan-American commerce, Pan-American railroads, and such amazing progress and resources. It may be captured by the northern, but by the southern part of the continent."

OTHERS SPEAK.

The Secretary of State, Philander C. Knox, chairman ex-officio of the Governing Board of the International Bureau of American Republics, made the opening of bringing into closer relationship the republics of the Americas. He said:

"I feel that I am especially privileged in taking part in the auspicious ceremony of the dedication of this building to be devoted to the cause of peace and good will between the republics of Latin America. It is more than a privilege, it is a duty incumbent on me to voice the sympathy of the United States in the great work which it is the mission of the International Bureau of American Republics to accomplish."

Expressing the hope that the new building of the International Bureau of American Republics may be the starting point of a new era of greater mutual esteem among the nations of

Enjoy Your Meals

BY SIMPLY EATING A LITTLE PLEASANT TABLET AFTER EACH OF THEM.

A Tablet Digests a Meal. Trial Package Free.

When digestion is perfect the fluids necessary to this process come naturally to the aid of the stomach. They are of right proportion and do their work speedily and well. When indigestion and dyspepsia are prevalent, these same juices come slowly if at all, are weak and insufficient or are forced with strong acids and alkalies. When such a condition exists each meal is a hardship upon the digestive organs. The meal should strengthen the juices, but so that man by the very act of eating causes conditions to arise which of themselves bring him pain and longing for the next meal.

By eating one of Stuart's Dyspepsia Tablets you mix the tablet with your saliva and it goes into your stomach a strong, vigorous fluid, many times more powerful than the natural digestive juices. These tablets are made up from natural vegetable and fruit essences and are composed of Hydrastis, Golden Seal, Lactose, Nux, Asafoetida, Peppermint and Jamaica Ginger. These tablets after each meal is a powerful assistance to nature and is an excellent habit to make.

Go to any druggist and ask his opinion of Stuart's Dyspepsia Tablets. We will abide his answer if he is an honest man. They sell for 50c per package. Send us your name and address and we will send you a trial package by mail free. Address F. A. Stuart Co., 150 Stuart Bldg., Marshall, Mich.

## WHAT THE HIGHWAY COMMISSION SHOWS.

Forces at Work at Twenty-two Points, Lot of Material Ready, Outlook for Progress—Some Good Results, Some Faulty.

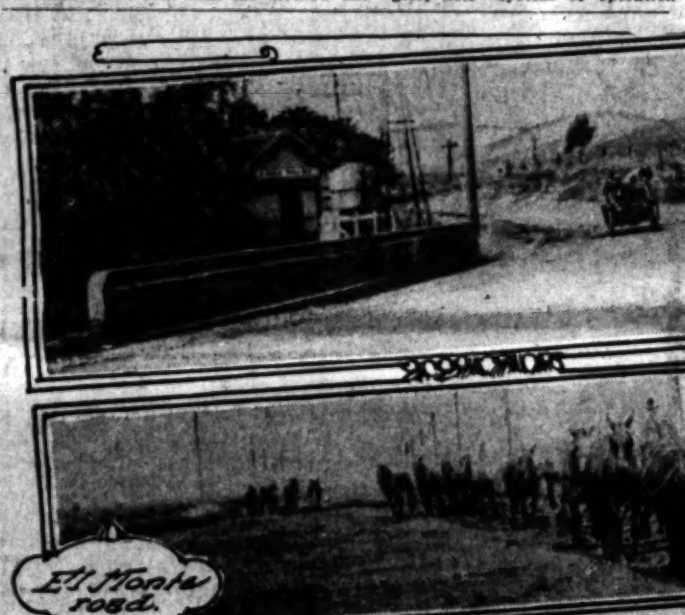

BY R. H. WILLSON.

THE Highway Commission, accompanied by a representative of The Times, made an automobile tour over nearly 100 miles of the good roads yesterday. Here is what the trip showed:

Work going on in twenty-two different places. The working forces consist of about 600 men and 500 head of stock.

The shortage of crushed rock, which the commissioners have said all along was the great obstacle to progress, is almost a thing of the past. The immense plant at San Dimas is being pushed rapidly to completion. It will probably supply 200 tons a day this summer. The Pacima quarry is supplying 400 tons a day, or 100 tons short of its rated capacity. To expedite work on the El Monte road a temporary supply has been secured from the Riverside quarries.

Two pieces of good road constructed under the bonds were passed over on the trip. The two and one-quarter miles of the El Monte road, completed by the Advisory Committee, seems from outward appearance to be a fairly good stretch of country highway. The short piece of Prospect avenue that has been completed a few weeks is disintegrating on the surface already, and is very unsatisfactory. Chief Engineer Loder said after inspecting it that he will not accept it, and that it will have to be resurfaced. He maintains that the method

El Monte road.

of construction is not at fault, but that the filling was not properly done. The trip was made by the representative of The Times, with the idea of a defense for the Highway Commission nor with the hope of substantiating the charges of the Advisory Committee, but with the single purpose of taxpayers getting out to see how his money is spent. To offer the taxpayers of Los Angeles who cannot make the trip for themselves, an opportunity of seeing what is to be seen as nearly as it is possible, is the motive of this account.

ON THE NEW ROAD.  
Leaving Los Angeles early in the morning the party went out through Eastlake Park to the El Monte road, which, at this end, is dusty and rough. A little way beyond the city limits the machine guided upon a place of smooth, firm roadbed that offered the best going of anything encountered on the entire trip, except the asphalt pavements of the city. An engineer might discover some defect in this road, but so far as present travel is concerned it does not appear. Here and there a place where the oil is coming to the surface would attract the attention of the passer as promising to develop a soft spot. Engineer Loder says it is one of the objects sought to have plenty of oil at the surface in the beginning. This oil is to be taken up by fine siftings of rock and will prevent the surface from becoming brittle. There are several curves in the road which are so placed as to require no slowing down.

It was a long run from here to the next point of road work. The contract for fifteen miles beyond El Monte has been let and a large force of men and teams was at work on the grading. Forty culverts are being built on this stretch. Two steam rollers, one of them belonging to the county and under lease to the contractor, and a traction engine were engaged on the grading of this road. Indications were favorable to rapid progress. The rock is supplied from Riverside and will be ready as fast as the grading is completed.

The contract by which this rock is secured may be an argument favorable or adverse to the efficiency of the Highway Commission. It is costing about \$1 a ton delivered. Rock from the San Dimas quarry will cost \$3.4 cents a ton, with a small additional freight charge. Possibly the Highway Commission has been saving a considerable sum of money by holding back the construction work until it could supply the cheapest rock. It may be, on the other hand, that the development of the quarries has not been as rapid as it should have been. Looking at this fifteen-mile contract on the El Monte road just as it stands today, the delay has been more economical than the haste which provides for the building of roads with rock at a \$1 a ton.

FROM PACOIMA.  
Entering the San Fernando Valley through Glendale, the first piece of road work in which the Pacima quarry rock has been used, was encountered on the section from San Fernando Road to the Griffith Park hills, a few weeks ago. The first course of rock

also offers immense possibilities of quarry storage.

CONCRETE CULVERTS.  
Leaving the quarry shortly after noon the members of the party turned eastward again on the foothill road to inspect the three concrete culverts that are nearly completed above Lordsburg. These culverts are an important improvement, as in one of the washes the wooden bridge has been carried away by flood-water every few years. The culverts are built by contract and the character of the work appears to be satisfactory.

The foothill road offers a long stretch on the return to Pasadena, where no improvements have been started. Residents along this route expressed their dissatisfaction with the present state of the road. Mr. Ponet declined last night to give the consideration involved in the transaction, but stated that he had paid a good stiff frontage price for the holding.

The purchase was made for eventual improvement with a large office block or hotel structure, although such a building will not be erected during the present year, owing to the fact that the present site is tied up in leases. Mr. Ponet stated yesterday that he believed the section in which he had bought as one of the best of future sites for such a building. He owns considerable other property in the north end of the business section.

SCENES ON ELLIS ISLAND.  
Robert Watchorn will deliver a lecture tomorrow evening in the First Methodist Church, under the auspices of the Young Women's Home Missionary Society. The subject of the lecture will be "Scenes on Ellis Island," and admission will be free. It is commonly known that Mr. Watchorn was

## ROBBERS LURE THEIR VICTIM.

Teamster Answers Summons to Lonely Spot.

He Is Brutally Beaten and Money Taken.

Woman Discovers Sufferer and Calls Help.

Inveigled into playing the Good Samaritan in a secluded spot, yesterday evening, Claude W. Barnhart of No. 218 Sunset boulevard, a teamster for the Barber Asphalt Company, was hit on the head by a Mexican and robbed of \$54. The robbers, of whom there were two, escaped into the foothills near Hollywood. A description of them was given to the police, who are searching for them.

Barnhart owns a team and had been hauling sand on some improvement work being done at Hollywood. Yesterday was pay day at the grading camp, and Barnhart, with \$54 in his pocket, started to drive home, taking with him his camping outfit and a quantity of hay on his wagon.

The young teamster had reached a lonely spot on Sunset boulevard, near the corner of Wilshire boulevard, when he was stopped by a tall Mexican who told him that a friend of Barnhart's was sick on the other side of a nearby hill. Barnhart hurried up the hill. With the Mexican was explained that the sick man might be hauled home on the wagon.

ENDS MAN IN WEEDS.  
When the two reached a spot where it was impossible to see them from the road, they came upon a man ly-

ing still among the weeds, a handkerchief spread over his face. Barnhart stooped over the supposed sick man.

He was dealt a stunning blow on the side of the head. The blow failed to put him out, however, for he is a powerful young man, and as he straightened up, he saw the Mexican coming at him again, with a large blue Colt's revolver in his hand. At the same instant, the man who had feigned sickness sprang to his feet and joined in the assault on the teamster.

Barnhart battled with his assailants, but the first blow on the head had dazed and weakened him. Again and again the big pistol came down on his head and shoulders and arms, until he was beaten down, and the robbers snatched the money out of his pocket and ran.

It was about 5:30 o'clock in the evening, and before he was overpowered, Barnhart had seen enough of both the Mexicans to give a fair description of them to the police. He said last night that he believed they were men from one of the grading camps in that vicinity.

Some time after the robbery, Mrs. Erskine M. Ross, the wife of the Federal judge, chanced to pass over the hill on the way to her ranch near by. She found Barnhart groaning in the weeds near the path. Mrs. Ross hurried to the nearest telephone and summoned the police ambulance and Dr. C. D. Baker of No. 4212 Prospect avenue, who gave the injured man some relief. William Preder of No. 8119 Sunset boulevard and Clarence Potts of No. 1822 Cooper avenue, together with other men, were also called. The robbers had disappeared, however, and all the men could do was to carry Barnhart down off the hill.

He was shivering from the shock and suffering intensely from the bruises on his head. The place is a long way from the Central Police Station, and in order to make him as comfortable as possible until the arrival of the ambulance, the men took his coat and blankets down from the hay wagon and put him to bed on the side of the road.

At the Receiving Hospital, it was found that Barnhart had been cruelly beaten about the shoulders, sides and lower limbs, as well as on the head, but he escaped without any broken bones.

STANTON IN THE VALLEYS.  
Phil A. Stanton, accompanied by Fred D. Boruff, J. F. Paulding, E. R. Allen and Winfield Hognboom, toured the San Fernando and Glendale valleys yesterday in the interest of Mr. Stanton's candidacy for the Republican nomination for Governor. Stops were made at Tropic, where the candidate went through the factory of the Western Art Tile Works and the box factory, and at Glendale, Burbank and San Fernando. At each of the places visited large numbers of people gathered to meet Mr. Stanton, and much enthusiasm was shown for

him. Mr. Stanton was shown the

given by her to McDonald, which he afterward had made out in his wife's name. The property involved is lots Nos. 2, 4 and 5 of Huntington Court, alleged to be worth \$1000. The petition indicates that the plaintiff gave McDonald the deeds to the three lots for breath-perfume machines that were represented to her as being big money-makers. The machines were handled by G. W. Wasson, and McDonald and Wasson occupied the same office in the Bradbury building. Afterward it was discovered that the representations in regard to the machines were false. It is alleged, and the plaintiff wants a rescission of the contract and the wiping out of the deeds.

SMALL CRIMINALITIES. In Judge Williams' court, yesterday, the case against Margie V. Grant, charged with securing property under false pretenses, was postponed from today for a hearing to May 2. John Burton, charged with grand larceny, will be tried May 28.

PETITION TO SELL. The First Church of the United Brethren in Christ filed a petition for permission to sell a lot in the Woodlawn tract, now partly occupied by a building of the Second Church of the United Brethren in Christ, to that congregation for the nominal price of \$10.

BACK AGAIN. One of the first divorces granted by Judge Hervey, more than a year ago, was a decree annulling Hermine Roos from Henry Roos, on the ground of extreme cruelty. An order compelling Henry to pay Hermine \$1 a week was made, but he failed to put up, and yesterday he was haled into court to show cause. An amicable arrangement was made by which there is to be a division of the property. Roos is a saloon-keeper, and at one time was worth considerable money.

STRONG EVIDENCE IS GIVEN IN BATTERY CASE.

Mining Broker Is Found Guilty of Assaulting Man in His Office and the Victim Introduces Photographs of His Damaged Countenance at the Trial.

L. E. Barnes, a mining broker of the Central building, was found guilty of a charge of battery upon J. E. Krepps, after a trial by jury in Justice Chambers' Police Court, yesterday. Krepps is also a mining broker. According to his evidence, he visited the offices of Barnes on February 28. He wanted Barnes to sign a document to be used in connection with the settlement of the business of a mining company of which Barnes had been president. The men engaged in an argument. Krepps arose hurriedly to leave. Barnes alleged he thought his visitor was drawing a revolver. A fight followed, and Krepps was badly beaten. He swore out a warrant for the arrest of Barnes. He then had some photographs of himself taken to be used as evidence. These were introduced yesterday during the trial, and showed Krepps to have been badly battered. Barnes will be in court for sentence this morning.

Wife-Beater on Chain Gang. Antonio Castro, who gave his wife a severe beating because she angered him during an argument, was sentenced to thirty days on the chain gang by Justice Williams in Police Court yesterday.

SKINNER INDICTED. A new indictment against Sigel E. Skinner, who was arrested several months ago on a charge of fraud, was returned by the Federal grand jury, yesterday. Skinner appeared in court, and pleaded not guilty. He was accused of entering into a fraudulent contract against Imperial Valley entrymen for some time, until the government began to look into his queer methods of instituting the contests. Several innocent holders of valuable assignments assert that Skinner's methods were illegal, and that he started contests in order to make settlements with the settlers upon a money basis.

LEAVING THE WIDOWER. Relatives of the late Mrs. Dickinson, a former resident of this city, have brought suit against the widower, Samuel Dickinson in the United States Circuit Court. The case will be called next Monday. The plaintiffs are the five brothers and sisters of Mrs. Dickinson. She died leaving an estate consisting of \$21,000 and a number of valuable lots. The will was probated in the Superior Court some time ago.

CHARGED WITH CONTEMPT. Adolph Melnecke, Jr., was arrested in San Francisco night before last, at the telegraphic request of the Sheriff. The prisoner is charged here for contempt of court. He is alleged to have disobeyed an order of Judge James to pay his wife \$75. Melnecke went north on the Santa Rosa Sunday. Deputy Sheriff Woods, who took a convict to San Quentin Monday night, will bring Melnecke back.

FAT MAN GOES SOME. Reyster With a "Running Jag" Causes Plenty of Excitement While His Breath Lasts.

J. C. Klempner last night accumulated what is technically known as a "running jag," and he ran so fast that he could not stop until he was locked up in the City Jail.

Klempner was out with a few of his friends, and the party became quite convivial. "Let's run a race from here to the Plaza," said somebody. Klempner, when it was all over, told the desk sergeant he did not remember where here was, but he took up the challenge. The sprinters started in a bunch, all headed for the Plaza. Klempner was ahead. The others ducked into a cross street. Klempner, fat and short-breathed, was blowing like a porpoise when he passed the officer on the beat. The policeman joined in the race. A crowd of men and boys also took the trail. The patrol wagon happened along the street and joined in the race, but Klempner kept handily ahead. He finally crumpled up and fell into a doorway. "I was just running a race," he said, disgustedly, to the amazed policeman. "All I want is my collar button." Klempner called back to the desk sergeant, as he passed into the jail door.

**HELD FOR FORGERY.**  
Young Man Who Says He Served Term for Murder Will Be Brought Here.

Harry Oliver, a young man who says that he has served five years in a penitentiary for killing a man at Dayton, was released from a burglary charge at Phoenix yesterday only to be immediately arrested for the Los Angeles police. Oliver is wanted to answer to several charges of forgery, and an officer will leave immediately for Phoenix to bring him here.

The specific charges against Oliver is the forgery and cashing of a \$21 check, the complainant being the California and American Bankers' Association. It is charged that on November 12, last, Oliver was working for Samuel Parge, a contractor in this city, who always paid him by check, at the rate of \$21 a week. Oliver forged one of these checks on the Security Savings Bank and passed it on Harper & Reynolds.

erly executed that it was some time before the worthlessness of the check was discovered. In the meantime, Oliver is said to have forged four or five other checks, all for \$21, each, after which he disappeared.

He went from here to Phoenix, where he was arrested on a charge of burglary. He was cleared of this charge, but while under arrest he told the officers of Arizona that he had once been sentenced to life imprisonment for killing a man, and that, on obtaining a new trial, the sentence was reduced to five years, which he served.

The annual concert of C. S. De Lano's mandolin, guitar and banjo clubs will take place Friday evening, and the programme which has been prepared, ranges from negro melodies to grand opera selections. # A Famous Painting FOR TIMES READERS

It is universally conceded that, as an animal painter, Rosa Bonheur was the greatest the world has ever known. So conscientious, so devoted to the real in art, it was her custom when portraying the death struggle of an animal to visit the slaughter-house and there patiently observe the final twitching of the muscles as life became extinct. The results of her painstaking efforts soon made her a world-renowned figure in this most difficult line.

HER MASTERPIECE...

# "The Horse Fair"

In 1853 this wonderful painting was exhibited for the first time and created general astonishment. In order to obtain material for this picture, Mme. Bonheur adopted masculine dress, which she never discarded.

"The Horse Fair" was originally the property of the "merchant prince," the late A. T. Stewart, but was acquired by the Metropolitan Museum, where it now hangs, and is viewed daily by hundreds of visitors.

## When the Skin Ails

Real "First Aid" in Eczema and Skin Troubles of Every Nature.

Most medicinal preparations for physicians' use tell on the label what particular disease they are best adapted to cure. All the troubles readily curable by poslam, the new skin remedy, make a lengthy list, including every surface skin affection, for poslam is "first aid" whenever the skin ails. While primarily a remedy for eczema, acne, tetter, barber's and all other forms of itch, etc. it promptly cures all the lesser skin affections, pimples, blackheads, blotches, fever blisters, red noses, inflamed skin, rash, herpes, clears the complexion and keeps the skin in a healthy condition.

Many of these minor troubles are eradicated by poslam over night, others in a day or two, and many cases of eczema yield in two weeks. Itching stops on first application, and the skin begins to heal at once.

Every druggist keeps both the 50c size (for minor troubles) and the \$2 jar, and either of these may be obtained at The Owl Drug Co.'s Stores, as well as other reliable drug stores. But no one is even asked to purchase poslam without first obtaining a sample package, which will be sent by mail, free of charge, upon request, by the Emergent Laboratories, No. 32 West Twenty-fifth street, New York City.

parts of the multiplication table he had learned from the older children, as he could not read and of course, did not know anything of figures, not even the names of them. When he began to question him he found he could go through the table all right. Then he asked the production of 1234, to which 1281 was instantly given. Questions in multiplication of two or three places of figures were answered with much greater rapidity than they could be solved on paper; also questions involving an application of this rule, as in reduction and the rule of three, seemed to be perfectly adapted to his mind. The extraction of the roots of exact squares and cubes was done with very little effort and what has been considered by the mathematicians of Europe an operation for which no rule existed, namely, finding the factors of numbers, was performed by him, and in course of time he was able to point out his method of obtaining them. Questions in addition, subtraction and division were done with less facility, on account of the complicated and continuous effort of the memory.

Among the questions asked was one by the Duke of Cambridge, after he was taken by his father to England: Give the number of seconds since the Christian era, 1813 years, 7 months and 27 days. The answer was given, 7,234,284,000. He then raised the number to the sixteenth power and gave the answer, 1,314,749,764. He was then tried as to numbers consisting of one figure, all of which he raised as high as the tenth power, with so much facility that the person appointed to take the result was obliged to ask him not to be too rapid. He was then asked to give the square root of 108,841, and before the number could be written down, gave 329. Another question, namely, the number 347,492, he answered by using 941-262, the only numbers which will do it. These, with many others which he solved with facility, will not name them, when only 9 years of age.

According to an affidavit filed with the New York County Court, Miss Henrietta Chapell, an elderly spinster, with \$100,000, has a mania for collecting old tomato cans, old bottles, stale bread, decayed vegetables and other refuse, and persists in living in squalor impossible to describe, although her mother, who is 82, and her brother, who is 72, need comfort not afforded by their filial piety. The affidavit is filed by a niece.

## WORTH WHILE

## Opportunity In Oil

Perhaps this will "fit" you.

Anyway read.

Patented ground.

Located in "gusher" territory.

Stock now being listed on the San Francisco Exchange.

Three "gusher" wells just across section line.

Our "Well No. 1" just being finished through over 150 feet of oil sand.

Well No. 2 started.

"THE RECORD WILL READ"—five producing wells within seven months from May 1st, 1910, or possibly sooner.

A private syndicate now forming at a very low price, based on intrinsic values, to absorb a special block of the company's stock.

Everybody says five wells will give a daily production of from 1500 to 2000 bbls. of oil. We feel sure of at least 1000 bbls. per day.

1000 bbls. per day, at 60c per bbl., means the stock of this company will be worth over \$3.60 per share on a 10 per cent. per annum basis within seven months.

You can get into the present "PRIVATE SYNDICATE" NOW at an extremely conservative price.

After we have completed five producing oil wells by going to the well-known "second sand," and our shareholders are assured of a very excellent monthly income on their investment, then we will drill "WELL NO. 6" down to the "THIRD SAND," and confidently expect to get a "gusher" equal to the Standard well—8000 or 9000 bbls.—or even like their new well just brought in—over 12,000 bbls. per day—it is claimed. Why should we not get a "gusher?" We are in gusher territory.

We have a 20-year lease, one-fifth royalty.

The ground is patented, perfect abstract and title.

We have a "purchase clause" in our lease, secured before the present excitement, at a price less than one-third the values asked for undrilled adjoining property.

We do not want any one—man or woman—to purchase an interest in the PRIVATE SYNDICATE OF SHARES that is now being placed, until they first personally visit the property and decide on their own judgment.

If you elect to come in with us, and our "WELL NO. 6" opens a "gusher" on reaching the "THIRD SAND," why there is hardly any estimating the phenomenal profits and returns that will come to you through this investment.

There is an old saying that "nothing risked, nothing," but here is an opportunity where there is nothing risked, no hazard and seemingly certain returns.

Our company, nor its shares of stock, will ever be advertised in the newspapers or with fancy prospectuses. The only place it will appear in "cold type" will be the market quotations when arrangements for listing on the San Francisco Stock Exchange are completed.

We do not want you to answer this if you are not willing to pool your shares with other stockholders pending the completion of the first five wells, and they will doubtless all be on the "pump" within six or seven months. Then you will probably be so thoroughly satisfied that you will gladly hold your stock until we have—a "gusher" in "WELL NO. 6."

We do not want your money unless you are willing to FIRST visit the property and see it for yourself. If you are willing to do this, and we are assured you are financially able to make an investment of from \$1000 to \$5000 cash, and desire to invest in a meritorious proposition after a personal visit to the property, and it is found satisfactory, THEN we stand ready to pay all your expenses of the trip—railroad fare, Pullman fare, automobile trip, hotel bills, etc. The trip requires just ONE DAY. We can leave any evening at 9:30 o'clock from Southern Pacific depot, spend one day in the Midway oil fields, and arrive back in Los Angeles on the return trip at 7 o'clock the following morning.

Read carefully the "opportunity" outlined above, and then if you are REALLY DESIROUS of making some money out of the oil business we will "show you" and you can judge for yourself if each and every claim is not conservative in the extreme.

If we strike a "gusher," \$1000 invested now at price offered in "Private Syndicate" will grow into \$20,000 or \$25,000 in a surprisingly short time.

## FREE ROUTE VICTIMS ROAR.

Scheme Denounced by  
County Official.

Assaults Extortion  
Gone Is Tried.

Jury May Be Asked to  
Investigate.

For "suckers" with  
golden opportunities for  
business, are the two  
victims of a scheme that is now un-  
der investigation at the office of Deputy  
County Clerk.

Kinsinger, a coffee salesman,  
has been at the Puritas Cot-  
ton Company, No. 358 South  
Main street, is the object of  
investigation. Kinsinger  
is a much-persecuted  
man. North declares Kinsinger's  
name is in jail, and if the good  
man there is where Kinsinger  
is going, vows the Deputy Dis-  
trict Attorney.

In a discussion on  
the subject, although at the present  
time the county officials seem to have  
the better of the argument,  
Kinsinger is under \$1500 bail to an-  
swer charges of obtaining \$500 from  
Kinsinger by misrepresentation;  
Kinsinger, W. A. Glasscock, one  
of the Puritas Cotton Company's  
salesmen, has been at Kinsinger's  
office for Robert A. Kinsinger,  
a judgment obtained in  
some kind of a case.

Kinsinger's late-  
st victim, a woman, is now  
being treated to a complaint  
against a wagon and harness  
company, from whom he was  
obtaining goods that would ex-  
ceed \$1000. This he says he  
did at a bitter delusion, and he  
is now in the District Attorney's  
office. Kinsinger was arraigned  
in the county court yesterday  
for hearing set for May 11.  
Kinsinger, says Kinsinger, is due  
for arraignment. He vows  
that he was threatened with  
the loss of his business, unless he  
paid a settlement with W. A. Glasscock.  
"This case was tried  
before Justice Ling and  
I was found guilty," said the defendant  
yesterday. "I am not  
guilty of anything. It is in fact, a carbon  
copy of the case."

BUICK OIL COMPANY controls some of the choic-  
est oil lands in the very heart of the Midway and Sun-  
set Districts.

640 ACRES

BUICK OIL COMPANY has already ordered its  
boilers and engines, and drilling will shortly begin  
on the company's Midway forty acres, in Section 82-81-23,

BUICK OIL COMPANY'S Maricopa Sunset forty  
acres, in Section 6-11-28, is close to the Lakeview's re-  
cord-breaking forty thousand barrels a day gusher, and  
in the same section as the Lady Washington and Le  
Blanc Oil Companies, and adjoining section to the K.  
T. O. and Ethel D. gushers.

640 ACRES

BUICK OIL COMPANY is now erecting eight der-  
ricks on its Sunset five hundred and sixty acres, in Sec-

640 ACRES

BUICK OIL COMPANY will sell two hundred thou-

development and the acquiring of additional holdings.

640 ACRES

BUICK OIL COMPANY has acquired its splendid

**After being duly assured that he could be made as lithe as a spring lamb with an application of the magic balm, Dunaway gave up \$50. He was undressed for an examination, which he declared lasted about a minute and a half. Purple rays, which were said to have great curative powers, were turned on him. He told the court that he has found since that they were made by an electric light being placed in a funnel, which had a purple glass in it. Then the wondrous balm was rubbed on the small of his back.**
